

eBeam Calibration and Palette Descriptions

This document provides concise information for the eBeam user to assist with calibration and includes stylus and detailed palette descriptions.

Calibration

Two Ways to Launch Calibration:

1. **Press Green Button**

2. **Select from the Tool Palette**

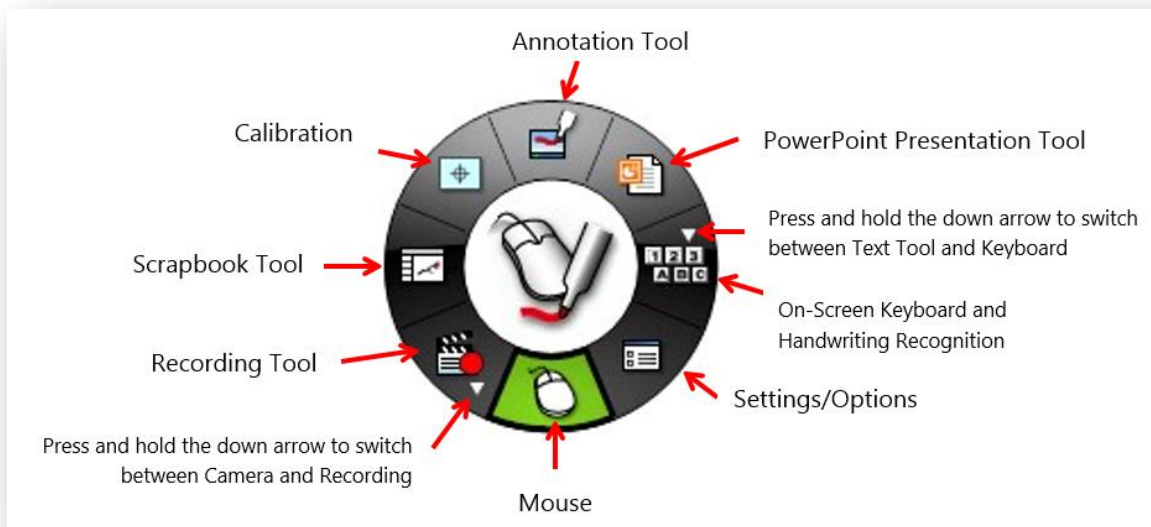

Stylus

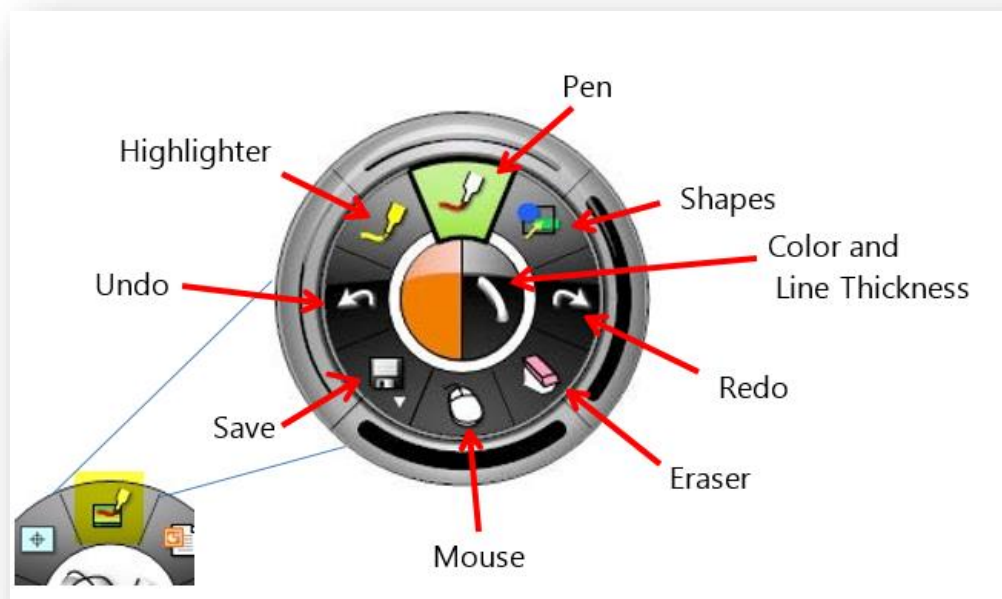

- Pen Tip : Functions as the left click
- Button A: Larger yellow button functions as the right click
- Button B: Smaller yellow button hides and reveals the Tool Palette

Desktop Tool Palette

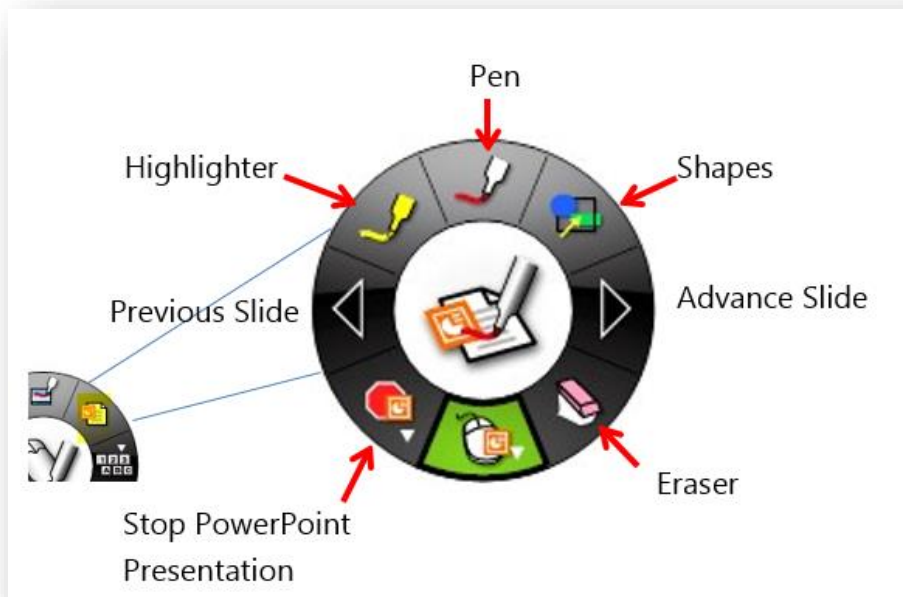

Annotation Tool Palette

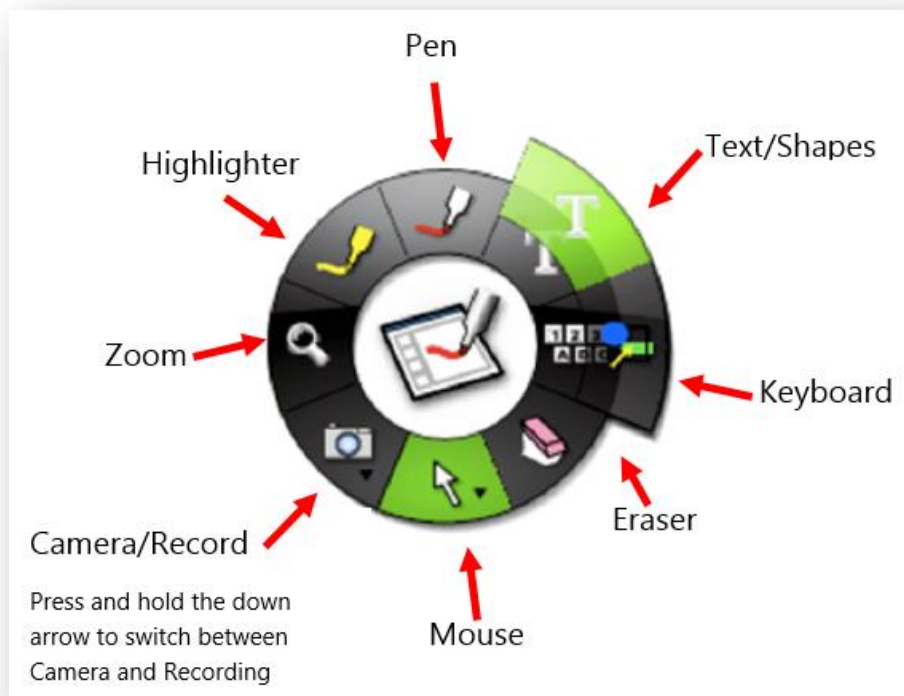

PowerPoint Presentation Tool Palette

If you prefer to work in PowerPoint, use eBeam to annotate on top of your presentation. All your notes will be saved into eBeam Scrapbook, available for playback.

Scrapbook Tool Palette

Recorder Tool Palette

Press and hold the down arrow on the Camera/Record button on the Desktop or Scrapbook Tool Palettes to open the Recorder Palette.
