iPad Settings & Restrictions (iOS 12)

These directions will explain how to set Instructional Technology's recommended settings and restrictions for iOS 12 on CCSD iPads. Note that some of the familiar settings are now found under Screen Time.

1. Open the Settings app.

2. In the left navigation bar, select Bluetooth and tap the switch to the OFF position.
   \textit{Note: Turning off Bluetooth increases battery life.}

3. Scroll down the left navigation bar and select \textbf{iTunes & App Store}.

4. Sign in with the assigned Apple ID and password.
5. In the **Automatic Downloads** section, tap the Apps switch to the **ON** position.

6. In the left navigation bar, select **Display & Brightness**.

7. Tap **Auto-Lock** and choose the greatest amount of time.  
   *Note: DO NOT choose Never.*

8. In the left navigation bar, tap **Screen Time**.
9. A series of pop-up windows will appear. Tap **Continue**.

10. Tap **This is My Child’s iPad**.

11. Tap **Not Now** for Downtime.
12. Tap **Not Now** for App Limits.

13. Tap **Continue** for Content & Privacy.

14. Create a Passcode for Parent Passcode and enter it twice.
   
   Note: This passcode should be recorded along with the Apple ID information on the required form (teacher form or cart/group form) and submitted to the school administration or their designee.
15. Tap **Content and Privacy Restrictions.** Enter the newly created passcode.

16. Toggle on for **Content and Privacy Restrictions.**

17. Tap **iTunes and App Store Purchases.**
18. Tap **Deleting Apps**. Choose **Don’t Allow**.

19. Tap **In-App Purchases**. Choose **Don’t Allow**.

20. Tap the Back Button and scroll down to the **Allow Changes** section and tap **Passcode Changes**. Select **Don’t Allow**.
   
   *Note: This will prevent students or others from creating a Touch ID and Screen lock passcode.*

21. In the **Allow Changes** section tap **Account Changes**. Select **Don’t Allow**.
   
   *Note: This will prevent students or others from changing the assigned Apple ID. Locking the Account will remove the icon in the app store which allows you to see previous purchases. If you need to access previous downloads, you will need to temporarily unlock the account.*

22. Repeat all procedures for all iPads using the same assigned Apple ID.
