

# Internet Access for CCSD Teacher Laptops

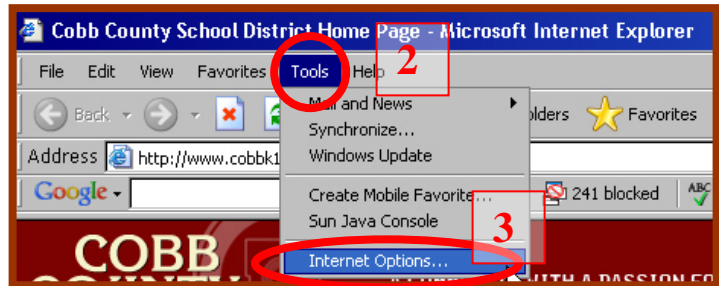

## From HOME (outside the CCSD Network)

### ONE TIME ONLY

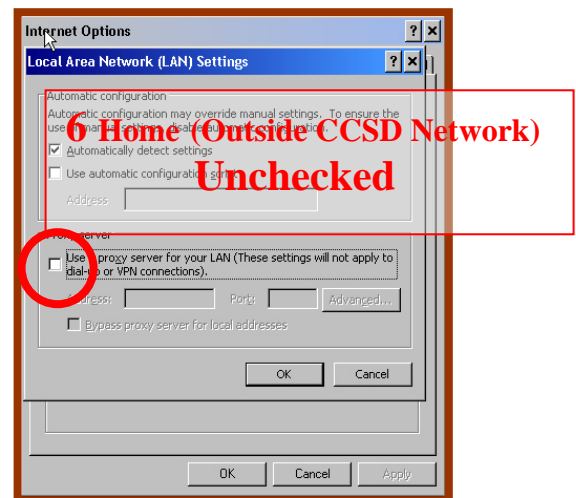

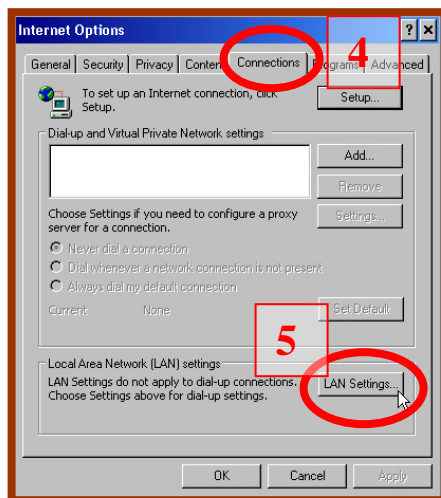

(The following process should be completed only once while logged in as the Homeuser)

#### Steps:

1. LAUNCH Internet Explorer
2. Tools
3. Internet Options
4. Connections Tab
5. LAN settings
6. **Uncheck** the box for **Proxy server**

Work with your Internet Service Provider to access Internet from home.

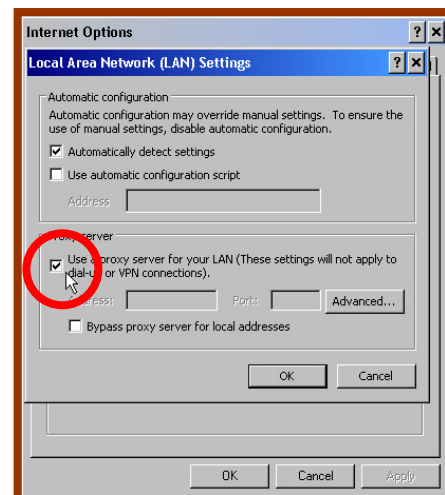

## From SCHOOL (inside the CCSD Network)

The settings required to access the Internet from within CCSD should be automatically configured when you log in to the network.

### Troubleshooting Tip:

If you are not able to access the Internet from the CCSD network, follow steps 1 – 5 above. A check mark should appear in the Proxy server box, when connected to the CCSD network.
