## Great Sites

- <http://internet-filter-review.toptenreviews.com/> - filter reviews
- <http://www.getnetwise.org/> - plain language explanations of software
- [www.isafe.org](http://www.isafe.org) – Internet safety for teens and parents
- [www.ikeepSAFE.org](http://www.ikeepSAFE.org) – Internet safety for k-6
- [www.netSMARTZ.org](http://www.netSMARTZ.org) - Internet safety for all ages – awesome activities to do with your child

## We can find Pedophiles

- <http://www.state.ga.us/gbi/sorsch.cgi>

## How to check where they surfed

- Check the history, if the history is blank then ask why they cleared it.
- Check the Temporary internet files.
  - Click on tools/internet options/settings/view files
  - This will give you a list of all of the graphics and cookies downloaded onto your computer
  - Click on a couple and see if they are appropriate

## Run a Spyware blocking program – Windows Defender is free

- <http://www.microsoft.com/athome/security/spyware/software/default.mspx>

## My House Rules

- No chat rooms
  - If you feel threatened, come get the parent to help save the conversation (if you get mad and exit, all the data is gone).
    - Block and remove that person from AIM
  - We don't talk about other people, our feelings, or personal information on-line – ever, end of story.
  - Warning - Other kids can sign on with other people's accounts and pretend to be someone different – be aware of out of the ordinary questions.
