WEBSITE UPDATE

## Student Resources

To help expand what we have offered students in the past for online study materials, we have recently added a new link to our website called "Student Resources". Within this link, you can find:

1. study guides for the Georgia Milestones,
2. eighth grade transition information,
3. USA Testprep access,
4. and study skills tips.

I encourage you to take a moment to review this new link and become familiar with the resources within it. [Click here to visit the Student Resources link.](#)

## STAFF Spotlights

Congratulations to John Bresnahan and Cornelia Washington for being our February Staff Spotlight Award Recipients!

Mr. Besnahan consistently fills in for any need the school may have with students. Every morning he welcomes our students with a smile and a thoughtful greeting. He has also served on a state Professional Standards Commission committee to represent our school and his profession. Mr. Besnahan always gives tirelessly of himself to ensure others around him are successful.

Mrs. Washington works hard to ensure great customer service is given to our families on matters ranging from immunizations to registration. She also assists the administrative team with a great deal of organization with students. No matter how much is on her plate, she always meets you with a smile and a positive attitude.
