If you would like an appointment, please email or call your child's school counselor.

We offer Core Curriculum lessons, small group counseling and individual counseling as direct services to our students. In addition, we support students by consulting with teachers and parents to overcome barriers to learning.

Varner School Counseling Program Vision Statement

The students of Varner Elementary School will become high academic achievers, positive leaders, effective communicators, cooperative problem-solvers, and respectful, responsible citizens with a strong will to persevere through all obstacles in life. They will be life-long learners, and beneficial, productive members of society, as they successfully thrive in their college and career pursuits.

Varner School Counseling Mission

The Varner School Counseling Program provides a comprehensive counseling program that teaches students the necessary knowledge and skills in the areas of academic achievement, personal / social development, and career exploration skills with a focus on each students' level and needs. The program supports all students with overcoming barriers to learning in a positive educational environment to ensure continued success as life-long learners and productive citizens.
